The company generates electricity from gas/oil, nuclear, coal, hydro and solar sources. It operates in two segments, Utility and wholesale products from Entergy. The company's Utility Segment generates, transmits, distributes and sells electricity in portions of Arkansas, Mississippi, Texas and Louisiana, including the City of New Orleans; and distributes natural gas. Entergy's wholesale food segment is engaged in the ownership, operation and decomposition of nuclear power plants located in the northern United States; the sale of electricity to wholesale customers; the provision of services to other nuclear power plant owners; and ownership of interests in non-nuclear power plants that sell energy Electrical power to wholesale customers. It sells energy to retail energy suppliers, utilities, electricity cooperatives, electricity trading organizations, and other electricity generating companies. The company's power plants have approximately 30,000 megawatts (MW) of power generation capacity, including 8,000 MW of nuclear power. The company delivers electricity to 3.0 million utility customers in Arkansas, Louisiana, Mississippi and Texas. Entergy Corporation was incorporated in 1949 and is located in New Orleans, Louisiana.
