Brother mfc-l2710dw service manual

Most Recent Topics Overview Test Results Offers Discussion type Type in a technolo Wireless laser Yes Color No SuperTank No Brother MFC-L2710DW is a monochrome laser printer that is intended for use in the industry, to those that are only printed in black. Like most laser printers, it prints quickly, and its unique cartridge can produce a good number of pages, which is ideal for offices that are frequently printed in bulk. However, the inability of the printer to print color is extremely limiting, so careful consideration is needed before committing to a printer of this type. The scanner has excellent features, but the lack of duplex scanning is a bit disappointing, as it makes scanning double-sided documents time-consuming. Printing photos is not recommended, as printed photos just look horrible. Overall, it is an excellent printer, as long as it is printed in black only. 3.3 Family 6.8 Small / Home Office 6.9 Student 8.6 Black & White 1.8 Photo Update May 11, 2021: Photo printing value changed in a cost-per-print box from \$0.25 to \$0.22. This was due to a change in the price of paper used by Canon. The new pricing reflects the actual cost of printing a page at 10x15 inches.

The HP LaserJet Pro MFP E452dn is a compact all-in-one device designed for small businesses or home offices. It offers fast printing speeds and reliable performance across various applications. While it lacks advanced features like large-format printing or extensive connectivity options, its core functionality is solid. The toner cartridge is easily accessible from the front, and although paper jams can only be removed from the back of the printer, you only need to open a single panel to gain access. The scan cover could be slightly extended if you need to scan large documents or books. If you need better access to the output tray, you can lift the bed from the scanner and it remains open by itself, so you do not have to hold it any longer. The whole printer feels robust, but the non-removable power cord makes it harder to replace if it gets damaged. Height 12.4" (31.5 cm) Width 16.2" (41.1 cm) Depth 15.9" (40.4 cm) Weight 25.6 lbs (11.6 kg). The brother L2710DW is a nice compact and you must easily fit into the majority of the small offices at home or bedrooms. However, the printer is high, so you need additional space if you want to use the scanner. Display Screen SA Display Display Size 2.04 "(5.1 cm) Tactile Screen Not Brother MFC-L2710DW has a defective display screen. It is a small monochrome LCD, two lines. Nor is it sensitive to touch, so all navigation is performed using the surrounding buttons. The vision handles are bad, what makes difficult to see if you are sitting or looking from one side, and there are no adjustments at all, inclination or turn. Browse the menu is quite easy, and the presence of a numbered keyboard is convenient for writing Wi-Fi and similar passwords. There are also dedicated buttons for the main functions of the printer: Fax, scanning and copying. ix TN-730 Black Toner Cartridge ix DR-730 Drum Drive Tels Cable Settings CD User Guide Photo Cartridge No Number Color Cartridges N/A / A Black Cartridge TN730 TESTED BLACK PAGE YIELD 67 Prints 1,273 prints Color Cartridge Model No Color Tested Print Speed 22 ppm Copying Speed 22 ppm Scanning Resolution 600 x 600 dpi Duplex Scanning Yes Paper Capacity 140 sheets Input Tray Capacity 100 sheets Output Tray Capacity 100 sheets Auto Document Feeder SA Document Feeder SA Duplex Scanning RESOLUTION 1,200 dpi Color Depth 24 Flatbed Scan Size 8.5" x 11" SA Fax S&C Copy SA Brother MFC-L2710DW has excellent scanning functions. It has a flat bed and an automatic document feeder to process documents of several pages, but unfortunately, misfortune. Perform the duplex scan. Note that when scanning with the flat platform, the default resolution is 1200 dpi, but when using the power supply, the resolution drops to 600 dpi. In addition, when scanning with the iPrint & Brother Scan on a PC, the default resolution is set to 300 dpi. To scan at a higher resolution, you need to manually configure it in the drop-down menu. If you need to scan duplex, take a look at brother MFC-L2750DW. Black cartridge Price 42.99 US \$ Color cartridge Price N/A / A Black Printing only 0.034 US \$ / Color printing N/A / A Photo Printing N/A / A Ink subscription Not updated 05.11.2021: Initially we set a value for photo printing, but changed this to N/A, since this printer is not designed for printing photos. The cost per printing of brother MFC-L2710DW is exceptional. The toner cartridge is relatively inexpensive and lasts a long time due to its high performance, so the long-term cost remains low. However, the drum is a separate unit and is not found in the case of the toner cartridge. The drum needs to be replaced approximately every 12,000 pages. Text and graphics are sharp and clear, even at very small sizes. The printer is quiet and does not overheat. On the other hand, the HP LaserJet Pro MFP E452dn is a more versatile machine than the Brother MFC-L2710DW. It can handle larger paper formats, such as legal size, and has a faster print speed. While it may be slightly more expensive, the HP's overall quality and reliability make it a better choice for professional environments where high-volume printing is required. Only print black. Edges less printing No, the brother MFC-L2710DW has a horrible photo print quality, which is expected from a monochrome laser printer. The images are grainy and there are many bands. Our test image was printed on a regular 8.5" x 11" paper, as the printer cannot print on glossy photo paper, results are based on the actual physical photo, not the scanned image provided for previous reference, which may not be representative of the printer's photo print quality. Card (8.5" x 11") Yes Legal (8.5" x 14") Yes TABLOID (11" x 17") No A6 (105 mm x 148 mm) Yes A5 (148 mm x x Yes A4 (210mm x 297mm) Yes Photo (2"x 3") No Photo (4"x 6") No Photo (5"x 7") No, the MFC-L2710DW brother has a manual power supply and a regular paper tray, and both are accessible from the front. The paper tray supports most paper sizes up to the standard legal size, but does not support any photographic documents. Mobile application and Ethernet connectivity Yes. USB input to computer Yes Bluetooth No Wi-Fi via router Yes Wi-Fi Direct Yes External storage media No Apple AirPrint Yes Mopria Print Service Yes Excellent connectivity options. It supports the most wired and wireless connections, except for Bluetooth and external storage devices such as USB thumb drives and SD cards. Mobile app Yes Name of the app Brother iPrint & Scan iOS Yes Android Yes Photo (JPEG, PNG) Yes PDF Yes Microsoft Office files Yes Text files (TXT) Yes Web pages (HTML) Yes The app more iPrint & Scan is excellent. With this application, you can print, scan or copy. You can also access the printer settings to perform maintenance tasks. We tested brother MFC-L2710DW, and there are two other variants of this printer, brother MFC-L2750DW and brother MFC-L2760DW. Both models offer similar features but differ in their maximum paper capacity and the amount of memory available and the ability to make duplicate copies. The Brother MFC-L2710DW is an excellent printer for printing black and white documents. However, it is not as versatile as a color inkjet printer like the brother MFC-J995DW, which sells at the same price. For more options, see our For the best printers all in one, the best Home printers and the best laser printers. Brother MFC-L2750DW and Brother MFC-L2710DW are very similar printers, but the MFC-2750DW is better in general. The MFC-L2750DW has a higher high price it is at a lower cost per print, you can perform dA'PLEX scanning, and rapidly prints. The Brother HL-L2395DW laser and the Brother MFC-L2710DW operate very similarly in general. The HL-L2395DW has a better display screen and prints more quickly, but the MFC-L2710DW has an automatic document feeder. Both printers use the same toner cartridge and produce the same number of pages. The Brother MFC-L2710DW and the Brother HL-L2390DW are similar, since both are monochrome laser printers with exceptional performance, low cost per print and fast pricing speed. The main differences are that the MFC-L2710DW has a scanner with automatic document feeder and an Ethernet port. The Brother MFC-L2710DW and the HP OfficeJet Pro 7740 are very different printers. The brother is a monochrome laser printer, while the HP is a color ink-jet printer. The HP is better for the home or small offices, as it can print higher quality photos on bright photographic paper, and has an automatic document feeder with a spanning capacity. However, if you just need to print in black, the brother is a better option, since it produces more black pages per cartridge and has a much smaller footprint. The Brother MFC-L2710DW is a great choice for office environments where high-volume black and white printing is required. Its compact design and fast print speed make it suitable for desktop setups. While it lacks some advanced features, its core functionality is solid and reliable. Application. It does not produce as many blank pages such as the HP, but the cartridge is cheaper, and accepts third-party cartridges, too. That said, the Brother Battery unit is a separate piece that you need to replace eventually, while the HP drum is integrated into the cartridge. The Brother MFC-L2710DW is a laser printer all in one that is best suited to black and white printing. It prints black-only documents significantly faster, although it takes a little longer to warm up to print the first page. On the other hand, the J995DW is in Is Injunctory unit all-in-one more versatile with a cost of printing and significantly better page, and you can print photos on photo paper with an impressive quality and a color accuracy suitable for A casual use.. + see more
