HuntFoundryAdobe Inc.Date2012LicenceSIL Open Font LicenseDesign based onFranklin GothicVariationsSource Han SansWebsitegithub.com/ado It is the first open source family of Adobe, distributed under the license SIL Open Font License.[2][3] The typography is inspired by the Gothic forms of Morris Fuller Benton's American Type Founders, such as News Gothic, Lightline Gothic and Franklin Gothic, modified with a higher height and width of characters and a more humanistic influence.Italics.[4] It is available in six pesos (Regular, ExtraLight, Light, Semibold, Negrita, Black) in vertical and italic styles, and is also available as a variable source with continuous weight values of 200 to 900.[5] The typography has a broad linguistic support for Latin writing, including languages from Western and Eastern Europe, Vietnamese, Romanization of Chinese and Navajo.[2] Adobe's teaching material highlights that it has a more consistent color on the page than the rather condensed News Gothic on which it is based.[6] See also Benton Sans "another Benton commercial rebirth, optimized for various weights, widths and optical masters for various text sizes Trade Gothic   Linotype competitive design Adobe open source family source code Pro, second member of the open source family of Adobe, a monopoly code without serif Source Serif Pro, third member of the open source family of Adobe Source Han Sans, fourth member of the open source family of Adobe and the first to includeCJK Source Han Serif, the last member of the Adobe Open Code Family and includes CJK CJK characters   Paul, Ryan (3 August 2012). "Select typography for body text." Type practice. Adobe Systems. Retrieved July 28, 2018. Fuente Sans has an obvious and hardness similar to News Gothic, but with much more color. Its forms of lyrics are wider and more widely spaced, more modest than monumental, which makes sense in a body text environment...Gothic news is not a good choice of body text type. Certain combinations of letters are very dense, and the general color is not even. External links Wikimedia Commons has media related to Source Sans Pro.
