I'm not a robot

You can find and open your files from Google Drive on your computer with Drive for desktop. You can use Drive for desktop to keep your files in sync between the cloud and your computer. Syncing is the process of downloading files from the cloud and uploading files from your computers hard drive. After syncing, the files on your computer match the files in the cloud. If you edit, delete, or move a file in one location, the same change happens in the other location. That way, your files are always up to date and can be accessed from any device. On this page Install and openDrive for desktop Open files on your desktop Set up sync Install and open Drive for desktop To download Drive for desktop: DOWNLOAD FOR WINDOWS DOWNLOAD FOR MAC On your computer, open: GoogleDriveSetup.exe on Windows GoogleDrive.dmg on Mac Follow the on-screen instructions.
