What to do when you forgot your pattern lock

What to do when you forgot your pattern lock on your phone. What to do when you forgot your app lock pattern. What to do when you forgot your screen lock pattern.

On the unlock screen, enter your unlock model after five attempts that you will be asked to wait 30 seconds, tap OK if the phone display turns off, tap the power button and unlock your screen touch the forgotten model? If you have not set up a Google account, you will not receive this option, instead you need to restore your phone (see below) Enter your Google user name and password, Touch Log in, you will be asked to create a new screen unlocking template . If you don't want it, tap Cancel, turn off the phone, hold down the Volume Down button Turn off the phone using the Volume Down key, highlight Delete memory and press the power button to select Press the Volume Up button The reset is now completed . Important: the restore of the phone will delete all data stored on the phone, the data stored on the SIM is safe. If you don't have a Google account or a data connection, this could be the only way to make your phone again usable, but be careful: will eliminate all the information you have on your phone; eg. E-mail account (if there are), cache, installed apps (not integrated), settings and files in the internal memory, but usually keep the files stored in the external memory. The hard reset will set the device in factory settings. (Just like when you bought it.) - You can start turning off the device in any way you can. SD removal is optional. (Ensures that the process will not delete the files there.) - Then, rotate the device by holding down the power button and the volume down the rocker at the same time. In some phones, there may be other combinations such as Power + Home / Power + Volume Up / Power + Volume up and down to you / etc. You can try other combinations on yourself and see what they work . - If you are successful, you will see a 'option. Select "System Recovery" by pressing the volume up. On some phones, it goes directly to the recovery screen of the Android system .- You will see the recovery screen of the Android system (if you don't see it, try again with other key combinations) Â © Â, 2020 Motorola Mobility LLC.
