

I'm not a robot

Timken is a global technology leader in engineered bearings and industrial motion. Our expanding portfolio of next-generation solutions helps customers around the world improve efficiency, solve their toughest challenges, and push the boundaries of performance. Our research and development efforts are driven by real-world challenges and emerging opportunities. We combine expertise in materials science, friction management, and power transmission to engineer solutions that enhance reliability, efficiency and precision. These innovations are powering advancements in robot-assisted medical treatments, industrial automation, space exploration and beyond. See how we innovate to transform industries. As a global technology leader, we apply our expertise to build a more efficient, resilient world. Our CSR vision is to improve lives, benefit the planet, and strengthen our business through sustainable engineering, renewable energy investments, and STEM education initiatives. See how we're driving meaningful change. Our global team drives innovation, collaboration, and customer success. With diverse perspectives and a culture of ingenuity, we power the next generation of technological advancements, strengthen the communities where we live and work, and develop future leaders for our company and the manufacturing industry. Discover how you can make an impact at Timken. Our shared values define how we do business and treat others. Timken is built on ethics and integrity. We believe trust and transparency are key to creating strong relationships and shared value. Our products have stood for quality for more than 120 years. We are focused on increasing reliability and efficiency through innovative solutions. Our high standards set us apart. Winning in a rapidly changing world requires a constant drive to perform and advance for all stakeholders. Our global teams are collaborative problem solvers in a culture that recognizes and rewards new ideas and contributions. Timken engineered bearings feature precision tolerances, proprietary internal geometries and quality materials. Our tapered, spherical, cylindrical, thrust, ball, plain, miniature, precision and housed unit bearings deliver strong performance, consistently and reliably. All around the world, the Timken name means expertise in friction management and power transmission as well as product consistency and quality. Occasionally, an unauthorized distributor manages to obtain Timken products and offers the products for sale to unsuspecting customers. We try to prevent it from happening in both unauthorized stores and on the Internet. Unfortunately, we don't catch everyone. To ensure you receive the quality and service you deserve, only buy from a Timken authorized distributor or a Timken sales representative. Do a worldwide search for a Timken distributor or sales office.
