Math Reading Kindergarten Vocabulary Spelling Spelling by Grade Grade 1 Grade 2 Grade 3 Grade 4 Grade 5 Grammar & Writing Science Science by Grade 4 mixed word problems involve addition, subtraction, multiplication, division, fractions, decin peasurements of mass, volume and length. Mixed word problem worksheets are ideal for encouraging students to read and think about problems carefully rather than simply recognizing a pattern to the solutions. Math Reading Kindergarten Vocabulary Spelling Spelling by Grade Grade 1 Grade 2 Grade 3 Grade 4 Grade 5 Grade 5	
cience Science by Grade Kindergarten Grade 1 Grade 3 Grade 3 Cursive   Bookstore Subscribe to ourYouTube channelfor the latest videos, updates, and tips. Word problems on multiplication: 1. One box can hold 133 mangoes. H	
uch boxes hold? Solution: Number of mangoes in 1 box = 133 Number of boxes = 3Total number of mangoes = 133 3 = 399So, 3 boxes can hold 399 mangoes. 2.24 folders each has 56 sheets of paper inside them. How many sheets of paper are there altogether? Solution: We can add 56 sheets 24 times ORSince multiplication.	
an multiply 56 and 24 to get the answer. [Sometime, more than one calculation is required.] Therefore, altogether there are 1344 sheets. 3. A carton holds 24 packets of biscuits. Each packet has 12 biscuits. How many biscuits can be packed in 45 cartons? In one carton we can pack 24 12 biscuits. In 45 cartons, we can pack 88 40 + 5Multiply by 5 Multiply by 40 Therefore, altogether there are 12,960 biscuits. There are 226 pencils in 1 packet = 226Number of packets = 212Total number of pencils = 226 212 = 479125. A bag contains 289 apples. How many applications are there in 212 such packets? Number of pencils in 1 packet = 226Number of pencils in 2 packets?	
ave?Solution:1 bag contains = 289 apples 72 bags contain = 289 72 apples 2 8 9 7 2 5 7 8 + 2 0 2 3 0 2 0 8 0 8Hence, 72 bags will contain 20,808 apples.6. A car travel in a year?Solution:Distance travelled by the car in one day = 345 kmThere are 365 days in a year?Solution:Distance travelled by the car in one day = 345 kmThere are 365 days in a year?Solution:Distance will it travel in a year?Solution:Distance travelled by the car in one day = 345 kmThere are 365 days in a year?Solution:Distance will it travel in a year?Solution:Distance travelled by the car in one day = 345 kmThere are 365 days in a year?Solution:Distance will it travel in a year?Solution:Distance travelled by the car in one day = 345 kmThere are 365 days in a year?Solution:Distance will it travel in a year?Solution:Distance travelled by the car in one day = 345 kmThere are 365 days in a year?Solution:Distance will it travel in a year?Solution:Distance travelled by the car in one day = 345 kmThere are 365 days in a year?Solution:Distance will it travel in a year?Solution:Distance travelled by the car in one day = 345 kmThere are 365 days in a year?Solution:Distance will it travel in a year?Solution:Distance travelled by the car in one day = 345 kmThere are 365 days in a year?Solution:Distance will it travel in a year?Solution:Distance will be a year.	vear.Distance travelled by the
ar in 365 days = $345 \text{ km}$ 365 1 7 2 5 2 0 7 0 0 + 1 0 3 5 0 0 1 2 5 9 2 5Hence, the car will travel 1,25,925 km in a year. Consider the following Examples on Word Problems Involving Multiplication: 1. A book costs \$ 67. How much will be paid for 102 such books? Solution: The cost of one book = \$ 6 7 6 7Number of books = 1 ooks = \$ 68342. A bicycle costs \$ 215. How much will be paid for 87 such bicycle = \$ 2 1 5 2 1 5Number of bicycle = \$ 2 1 5 2 1 5Number of bicycle = \$ 2 1 5 8 7 1 5 0 5 = \$ 6834 + 1 7 2 0 0 1 8 7 0 5Therefore, cost of 9 1 5 2 1 5 2 1 5 2 1 5 2 1 5 2 1 5 2 1 5 2 1 5 2 1 5 2 1 5 2 1 5 2 1 5 2 1 5 2 2 2 2	
The monthly salary of a man is \$ 2,625. What is his annual income by salary? Solution: Monthly income = \$2,625 2 6 2 5 Annual income = \$2,625 12 1 2 = \$31,500 5 2 5 0 + 2 6 2 5 0 3 1 5 0 0 Therefore, annual income = \$31,5004. A chair costs \$ 452 and a table costs \$ 1750. What will be cost of 15 chairs and 30 tables? Solution:	ution:(i) Cost of one chair =
452Cost of 15 chairs = \$452 15 = \$6,780(ii) Cost of one table = \$1,750Cost of 30 tables = \$1,750 30 = \$52,500Therefore, cost of 15 chairs and 30 tables = \$6,780 + \$52,500Worksheet on Word Problems on Multiplication: 1. Each student of class IV \$75 for the flood victims. If there are 368 students in class IV, what noney collected? Answer: \$276002. An orchard has 46 rows of mango trees. If there are 150 trees in each row. What is the total number of mango trees in the orchard? Answer: \$76003. A showroom has 165 bicycles. Each bicycle costs \$4500. What is the total cost of all the bicycles? Answer: \$7425004. The teller in the bank and the bank are the cost of the flood victims. If there are 368 students in class IV, what is the total cost of all the bicycles? Answer: \$7425004. The teller in the bank are the cost of the flood victims. If there are 368 students in class IV, what is the total cost of all the bicycles? Answer: \$7425004. The teller in the bank are the cost of the flood victims. If there are 368 students in class IV, what is the total cost of all the bicycles? Answer: \$7425004. The teller in the bank are the cost of the flood victims. If there are 368 students in class IV, what is the total cost of all the bicycles? Answer: \$75000 are the flood victims. If there are 368 students in class IV, what is the total cost of the flood victims are the flood victims. If there are 368 students in class IV, what is the total cost of the flood victims are the flood victims. If there are 368 students in class IV, what is the total cost of the flood victims are the flood victims. If there are 368 students in class IV, what is the total cost of the flood victims are the flood victims. If the flood victims are the flood victims are the flood victims are the flood victims. If the flood victims are the flo	
the value of each note is \$ 500, what is the total amount of money collected by the teller? Answer: \$ 4070005. A car factory manufactured in the factory in one year? Answer: 9006. The National Library has 502 book shelves. In each shelf there are 44 books. What is	the total number of books in
the library?Answer:220887. Our heart beats about 72 times in a minute. How many times will it beat in an hour?Answer:43208. Shyam works for 9 hours in a day. Ram works for 9 hours in a day and Ram works for 9 hours in a day and Ram works for 9 hours in a day. Ram works for 10 hours in a day and Ram works for 10 hours in a day. Ram works for 10 hours in a day. Ram works for 10 hours in a day and Ram works for 10 hours in a day. Ram works for 10 hours in a day	
here are 100 baskets of fruit. Each basket has 24 kg of fruit. If half of the baskets are kept on the weighing machine, then what weight will be shown by the weighing machine. Each box has a dozen candies in it. What is the total number of candies on the truck?Answer:80 concolates. How many people can travel in 240 such boats?Answer:15240014. A farmer produced 735 quintals of rice. He told	
uintal How much money did he get? Answer: 1,120,87515. A transistor costs 2,492. Find the cost of 64 such transistors. Answer: 159,48816. A rack can hold 1,850 books. 17. A cartoon can hold 15 dozen of oranges. How many oranges are there in 924 can be kept in 82 such racks. Answer: 151,700 books. 17. A cartoon can hold 15 dozen of oranges. How many oranges are there in 924 can be kept in 82 such racks. Answer: 151,700 books. 17. A cartoon can hold 15 dozen of oranges. How many oranges are there in 924 can be kept in 82 such racks. Answer: 151,700 books. 17. A cartoon can hold 15 dozen of oranges. How many oranges are there in 924 can be kept in 82 such racks. Answer: 151,700 books. 17. A cartoon can hold 15 dozen of oranges. How many oranges are there in 924 can be kept in 82 such racks. Answer: 151,700 books. 17. A cartoon can hold 15 dozen of oranges. How many oranges are there in 924 can be kept in 82 such racks. Answer: 151,700 books. 17. A cartoon can hold 15 dozen of oranges. How many oranges are there in 924 can be kept in 82 such racks. Answer: 151,700 books. 17. A cartoon can hold 15 dozen of oranges. How many oranges are there in 924 can be kept in 82 such racks. Answer: 151,700 books. 17. A cartoon can be kept in 82 such racks. Answer: 151,700 books. 17. A cartoon can be kept in 82 such racks. Answer: 151,700 books. 17. A cartoon can be kept in 82 such racks. Answer: 151,700 books. 17. A cartoon can be kept in 82 such racks. Answer: 151,700 books. 17. A cartoon can be kept in 82 such racks. Answer: 151,700 books. 17. A cartoon can be kept in 82 such racks. Answer: 151,700 books. 17. A cartoon can be kept in 82 such racks. Answer: 151,700 books. 17. A cartoon can be kept in 82 such racks. Answer: 151,700 books. 17. A cartoon can be kept in 82 such racks. Answer: 151,700 books. 17. A cartoon can be kept in 82 such racks. Answer: 151,700 books. 17. A cartoon can be kept in 82 such racks. Answer: 151,700 books. 17. A cartoon can be kept in 82 such racks. ranges.18. The cost of a doll is \$ 524. What is the east of 680 such dolls? Answer: \$356,32019. The capacity of the city? Answer: 1,612,500 litres. 20. A weaving machine makes 4148 m of cloth in a week. How much cloth will it in 48 and 21. The water capacity of a tank is 1325 litres. Find the total capacity of such 174 tanks. Answer: 98,050 litres are there in all? Answer: 416,185 sheeps. 23. Nairitee reads 12 pages of a book in one hour. How many pages are there in that	
a day and finishes the book in 30 days? Answer: 1,800 pages. 24. A bus can carry 52 passengers in one tip. How many passengers will it carry in the monthly fee of a student a Rs. 530. There are 142 students in a class. How much fee is collected from	
5,260 We know skip counting numbers with smaller numbers. Now, we will learn skip counting with larger numbers. Write the number as per following instruction: 1. Write six numbers with smaller numbers and up to the same total. Here is a magic square. The same total square is a magic square of the same total square is a magic square.	
the small squares in such a way that no number is repe Division by 10 and 100 and 1000 are explained here step by step. when we divide a number by 10, the digits at the remaining places of the number given the quotient. We know that the number alues of its digits is called the expanded form of a number. In expanded form of a number, the number is shown according to the place values of the digits are In division by two-digit numbers we will practice dividing two, three, four and five digits by two-digit numbers.	
xamples on division by two-digit numbers: Let us use our knowledge of estimation to find the actual quotient. 1. Divide 94 by 12 The answer of a subtract 2-digit numbers? Steps are shown to subtract 2-digit numbers. We will learn subtraction 4-digit, 5-digit and 6-digit numbers.	bers with regrouping.
ubtraction of 4-digit numbers can be done in the same way as we do subtraction of smaller numbers. We first arrange the numbers one below the other in place value columns and then we start In division of four-digit by a one-digit numbers are discussed here step by step. How to divide 4-digit numbers by single-digit nur ivision for fourth grade students are solved here step by step. Consider the following examples on word problems involving division: 1. \$5,876 are distributed equally among 26 men. How much money will each person get? We will learn subtracting 4-digit, 5-digit and 6-digit numbers without regrouping. We first arrange to	
ther in place value columns and then subtract the digits under each column as shown in the following examples. 1. Subtract 3248 from 6589. How to multiply 2-digit and 3-digit numbers by a 2-digit number (multiplier) as well as learn another procedure for the	he multiplication of 3-digit,
-digit, etc., numbers by a 2-digit multiplier. The place value of a digit in a number is the value it holds to be at the place in the number. We know that the position of a digit in a number determines its corresponding value We will learn about it in details. We know that the position of a digit in a number determines its corresponding value We will learn about it in details. We know that the position of a digit in any number. In multiplication we know how to multiply a one, two or three-digit number by another 1 or 2-digit number. We also know how to multiply a four-digit number by a 2-digit number by another 1 or 2-digit number.	
ifferent methods of multiplication. Here, we shall make use of the methods and In the Indian methods and In the Indian system, we use different periods like ones, thousands, lakhs, crores, etc. Suppose, let us understand the Indian system by using number 1: ones (1), tens (10), hundreds (100)Related Concept Addition WordProblems on

ssigned her, then follows the prompts on the screen. Sometimes its a simple questions with a multiple choice answer. Some exercises ask her to highlight the text that has a mistake or states the answer to the question. Immediately she is given few ords and more information to further her knowledge. When she answers incorrectly, she shown where she made her mistake and then a similar question will recycle through at a later time, giving her opportunity to learn and master. She much prefers the great job! messages, though. The learning is fun when you can colle	
ollect coins and awards, giving a visual of how much theyve accomplished. I am usually cautious about using programs that give awards and prizes, making it all a game, but I was pleased with how IXL handles this. The reward is there, in a subtle but highly effective manner. After her 15 minutes of assigned work, she was	s free to poke around and
xplore anything on the site she wished. She quickly gravitated to the Spanish tab. I have been impressed by how much shes picked up from the introduction all ready, even with no previous experience learning Spanish. As the parent, I receive emails informing me of her progress. They tell me how many minutes shes work complished, award certificates, etc. I can track her progress through charts and graphs provided on the parent side of the website. I really like this integration because it gives me current data. I can monitor how well my daughter is doing and make note of areas she needs work as well as celebrate victory, without looking the complex of the website.	
noment. What we thought I am impressed with IXL Learning. They provide a great way to reinforce learning. I do not see it as a full curriculum, but a supplement that will enhance our homeschool. Their website gives us straight forward drill work. I like that it is not gimmicky or cartoonish, but is still presented in a colorfu	ul and interesting way. Many
nline supplements weve tried have either leaned toward the childish or the boring. Not so with IXL.I plan to have Bekah continue her time on the website a few days per week, following the same pattern weve started. It has added some nice variety to her school day. IXL is not just for homeschooling families, though, a me
