Game of Thrones has one of the largest and television cast. The dozens of cast members range from the actors of the first time to winners Tony and Emmy. So when you're in the biggest television program in the world (which is a Behemoth in the history of pop culture), what does it mean for your bottom line? From the Lovenato but Loye Hodor to the ruthless Tywin Lannister, here's what the stars of Game of Thrones is worth. British actress Nathalie Emmanuel has enjoyed several years of success on the long-lasting channel 4 Soap Opera Hollyoaks before being launched Game of Thrones in 2013 as Missersei, a slave interpreter who becomes Confident Councilor of Daenerys Targaryen. Now, thanks to the show and roles in several large Hollywood franchises, worth \$ 1 million. Emmanuel, who joined the show in his third season, was listed as a recurring character for over a dozen episodes and eventually promoted to the main cast starting in 2015. Among the seasons he landed a small role in the Hollywood adaptation of Maze Runner Series, which ended in 2018 and appeared as a hacker in the fate of furious. When he made his stage debut in Hamlet in 1994, Nikolaj Coster-Waldau could not foresee that one day both among the most paid actors on TV. Since it is turned on to play the complicated Jamie Lannister on the HBO HBO series, Coster-Waldau, which also works as a producer and screenwriter, saw the luck of him to grow at around \$ 16 million. Together with many of its main cast members, Coster-Waldau makes a fresh dollar of half a million per episode, which compensates for all those night shoots and an ungraciated prosthetic hand. And although the film career of him prey the work on the game of the thrones (made his debut of Hollywood in the Black Hawk of 2001), Coster-Waldau continued to work on the big screen in the films like Egypt and of the Caller. In 2010, Maisie Williams beat more 300 other actresses to win the role of Pint Araya Stark killer on Game of Thrones-even though she had zero experience in front of the camera. Now, she is an actress named by Emmy, a favorite of the passionate fabase show and is worth about \$ 6 million. Williams, whose real name is Margaret, earns \$ 175,000 per episode; For the final season, eight episodes, she pocket a fresh \$ 1.4 million. In its time inactivity from the game of shooting of Game of Thrones, it appeared in several British TV series and films, and in 2015 it turned its pop cult culture with a recurring role on the iteration of Peter Capaldi of the BBC series for a long time Dr. Who term. Enter the final season of Game of Thrones, a common refrain was "Don't let something happen in Tormund, Á ç ä,~" who goes to show how loved the portrait of Kristofer Hivju of the charismatic The Walking Tormund Giantsbane has become since then Join the show in 2013. Among his work on HBO show and a memorable role in the fate of furious, it is estimated that the Norwegian actor is worth \$ 6 million. Hivju grew up in Oslo, Norway and graduated from the acting school in 2004. One of the first important roles of him arrived in 2011 when he was launched as a research researcher in prequislative science fiction horror. Since he is Promoted at the main cast of Game of Thrones in 2014, Hivju appeared on the Norwegian Hit Drama Lyhammer and starred next to Charlize Theron in the fate of furious. When he landed the Coldlidy Calculator Cersel Lannister, Lena Hatey was better known for her roles in the historic historical historian 300 by Zak Snyder and the short-term TV series terminator: Sarah Connor Chronicles. But it is sure to say that it is the Queen of Kings landing connivity that has made the British actress a star that is worth a value of \$ 9 million. After being encouraged to audition for the show with his long-standing friend Peter Dinklage, Hatey landed an agreement that is worth about \$ 300,000 an episode, and in 2014, renegotiated his contracts for the last two seasons to do \$ 500,000 an episode. She is kept busy in her dead time from the game of thrones with roles in films like bleeding and a part of voice voice in the Netflix Trollhunters series. Few characters on the game of thrones have inspired so much devotion as Hodor, the delicate giant that protects the Stark bran after fleeting Winterfell. And even if it is a man of a few words (literally Á ç ä,~ "the only word that knows is Hodor), the Irish actor Kristian Nairn has developed more than 70 ways to say the simple but powerful phrase. Nairn, who left the show in 2016, continued to act in shows like rookie, but now focused on his DJ career, which is worth \$ 500,000 reported. The former Belfast resident DJ runs through the world that plays At the progressive home; in 2014 he paid tribute to the show with a tour Rave of Thrones who sold club throughout the country. Natalie Dormer has one thing for tragic queen. The British actress welcomed the first notification in 2007 as Anne Boleyn on the Tudors; then Margaeary Tyrell arrived on Game of Thrones, who tried (and failed) to navigate the machines of Lannister Cersel. The rise of all that death? A thriving career worth about \$ 6 million. During his Stint of four years on the series, the Dormer is ramific ATo with a role in the mockingjay games of hunger games in two parts and has maintained a recurring role on the Drama CBS Elementary. After leaving the show in 2016, the Dormer returned to the stage in London in a production of Venus in fur and was launched in the limited series picnic to Hanging Rock. When the trunk game was presented in 2011, Sean Bean was by far the largest star of the show, which is why the death of him at the end of the first season was so shocking. But this is not the first rodeo of him. Also, when you reported a \$ 20 million dollars in the bank, what is there to be angry? Bean, which grew up in Yorkshire, has spent his initial career on British TV before making the jump to Hollywood with an Irish terrorist role outside for revenge in the 1992 patriot games. This has cemented his status as Stella D Action with the roles of Goldeneye and Ronin before landing a breakout role as Boromir in the Lord of the Trilogy rings. Since then he added Domito Ned Stark to his memorable death list. Some actors are fortunate right outside the gate. Even before getting into play of the thrones like Ygritte, Rose Leslie had won a beating and appeared in the first series of Downton Abbey. Add the new role of her to the CBS All-Access series The good fight, and Leslie now is worth an estimated value of \$ 4 million. The Scottish actress appeared on Game of Thrones from 2012 to 2014 as Ygritte, a Wild Headstrong warrior that eventually falls in love with Jon Snow (and the actor who interpreted him Á ç ä,~ "Leslie and Harington married in the 2018). After leaving the show, they landed roles in the last witch hunter and the Detective Idris Elba Luther series. It was also in the good fight from 2017. The more shocking thing about the Conlet Hill? It is not calvo in reality . The northern Irish actor who plays Daenerys Sage Advisor, Varyss, was held to revive his head the shooting. It is a small price to pay for the variable game, the Spymaster Court Cunning known as Master of Whisperers, a role that helped make the hill worth a value of \$ 2 million. The hill was already a well-known stage actor in Ireland that occasionally crossed on television when he was recommended for the role of various for nothing less than George R. R. Martin himself. And work on the throne game is a deal. Hill's youngest brother is an emmy-winning sound engineer on the series. Although he was not known as co-protagonist Sean Bean and Peter Dinklage, Michelle Fairley, was among the most veteran actors of the original cast of the game of thrones. The northern Irish actress had more than two decades of decentralization of theater, TV and movie credits behind her, all of which are added to a career worth \$ 3 million. Fairley portrays Catelyn, the fiercely protective matriarch of the Stark family, for the first three seasons of the show. The last episode of her, the castamere rains, is considered as a high point (or low point, depending on the tolerance for violence) of the notoriously brutal series. Since then Fayly appeared in recurring roles on television programs such as seeds and 24: live another day and starred in a Renaissance of London by Giulio Caesar Á ç ä Like many of his co-protagonists, Sophie Turner had no idea what we treated when you joined the cast of Game of Thrones. The Turner of the Polit-Younner had appeared in local sounds, but she had never acted professionally before taking the role of Sansa, the largest of the Daughters Stark. Now, thanks to the Hot HBO Show and other GIGS, worth \$ 6 million. Turner takes home for just \$ 175,000 per episode, but doesn't mean he was left high and dry. Mrs. Jonas just coined (yes, married Joe) took the role of Jean Gray in the most recent iteration of the X-Men franchise and worked with brands like Wellha's hair and Karen Millen. It is almost difficult to believe that Jason Momoa was only on Game of Thrones for ten episodes, considering the way in which his charismatic, intimidating leader Dothraki Khal Drogo still fixes almost six seasons later. But for the actor and the Hawaiian Nati model, he was only a Stepping stone to become a superstar certified superhero worth \$ 14 million. Momoa had spent several seasons about science fiction developed atlantis before joining the game of Game of Thrones, but the HBO Show popularity catapulted it into a new level of fame. After leaving the show in 2013, Momoa wrote, directed and starred in the cinematographic road to Paloma and landed a place in the DC universe like Aquaman: The standalone film of him in 2018 made over \$ 1 billion around the world. Even in the sprawling world of George R. R. Martin's books, Tarth's Brienne stands out; She was described as unusually high and simple looking, a woman built to fight in a world that sees something as aberrant. Gwendoline Christie knew she was the perfect actress for her part and talked about her successful her in a career worth \$ 3 million. Christie, who is three feet of three inches and mentions Tilda Swinton as one of her inspirations, made her debut as the loyal brieenne in the second season of the show and quickly became a favorite fan. Outside the show HBO, the British actress landed roles in other large franchises such as starvation games and stellar wars, where she plays Captain Phasma Shamma. Imagine auditioning for the biggest work of your career just three months after graduating from the Drama School. This happened to John Bradley who had just received his B.A. From Manchester theater school when he came out for the role of Samwell Tarly on Game of Thrones. Now eight seasons later, Bradley is recognized all over the world and was worth a penalty of \$ 4 million. The only bradley role before joining the game of Game of Thrones was the epic drama of the Borgia, where he has portrayed John of Lorenzo deÁ ç ä Á ç ä Doctors for half a dozen episodes. His portrait of Samwell, a shy bookworm that becomes one of the closest friends of Jon Snow, is a favorite fan. It also regretted in the voice that he acts with a role in a world of Warcraft and landed a recurring role on shameless. In 2006, British Pop Star Lily Allen wrote a song that cheer her brother younger than her alfie to be carefinated. That hard love brother must have worked because some years later alfie passed from small parts in Like the Atonement and the other girl Booleyn to the main role of Theon Greyjoy in Game of Thrones. And now it's worth a \$ 6 million. Not surprisingly, Allen became an actor: Mother of him Alison was a film producer, while his father was a veteran television and a film actor. Originally audited for the role of Jon Snow, but accepted the role of Theon, a ward of the Iron Islands taken by Ned Stark, and appeared in all eight the seasons of the show. Among the seasons, he appeared in the first John Wick film and restarting the Predator's 2018. Aidan Gillen is not a stranger to be in a beloved HBO show. From 2004 to 2008 he has portrayed Mayor Baltimore Thomas Caretti on the wire. But it is its six seasons like petr ", bingerfingerÁ ç ä,~ baelish, a very connive and manipulative character who gives ways a race for his money, which most fans associate with the Irish actor, who it deserves a \$ 8 million reported. Gillen, who grew up in Dublin, was appointed for a Bafta in 2000 for his role as Stuart Jones on the BBC Queer series as people. His long stage career includes a Tony nomination In 2004 for the Harold Pinter he plays the guardian and there was several audiobooks of Irish poetry and prose. Jon Snow knows something Á ç ä,~ "how to be paid. Harington graduated from the prestigious central word school and drama of 2008 in 2008 and spent several years to doing on the stage in London before landing the role of conflict, but faithful, Jon Snow in 2010. Now, thanks to the game of Trams and different fashion approvals, it is estimated that Harington is worth \$ 12 million. Like her other major cast colleagues, Harington saw her rate per episode of her to the stars for \$ 500,000. (Not bad for someone who had never been on television before!) The growing popularity of her in the show helped him land even other high-profile concerts. It's the voice of a fascinating Viking in the way to train your Dragon franchise and was presented in advertising campaigns for big brands like Jimmy Choo, Nissan and Dolce & Gabbana. We are named Tony and Winners Emmy Aquipire in the talent cast of Game of Thrones, but only one has a Best Ather Award Award. (This is the highest honor for acting to the International Film Festival Berlin!) Iain Glen, who plays Daenerys Á "ç Loye Confident Ser Jorah Mormont, worth \$ 6 million. The Scottish actor, which appears in all eight seasons of Game of Thrones, has brought over 20 years of phase and experience experience in his role as Ser Jorah, a previous dishonored ladies that helps Deenerys fight through Westeros. He was also appointed for several prestigious theatrical prizes, appeared in different episodes of the Abbey of Downton and landed a recurring role in the resident evil franchise. When Clarke has signed up to play Fiery Daenerys Targaryen in 2010, the British actress was far from being a family name. She has just graduated from the drama school at Central Saint Martins in London and the Ré SumsÁ ç ä © of her consisted mainly of theatrical performances and random TVs and film roles. Now, you are worth about \$ 13 million and one of the largest stars in the world. During the show, Clarke raised his per-episode pay several times, and before the beginning of the seventh season, she signed an agreement with HBO worth \$ 500,000 per episode. (No word on if it includes the salary of the CGI-Dragon danger). In addition to the millions of shells it was made by the show, Clarke has signed the extraordinary offers of approval with large fashion brands Dior and Dolce & Gabbana and branched with guide roles in Genisys and only: a story of Star Wars. Veterano Irish actor Liam Cunningham joined Game of Thrones in his second season as Davos Seaworth, a smuggler Á golden heart. Over eight seasons, it has become a favorite character by fans. (It is very far from his first years working as an electrician). After two decades, it is estimated that the award-winning actor would take around \$ 4 million. It took a few years for To pursue his dream of acting, but at half of the 90s, he started working constantly in the films like a small princess and appeared on several British TV series. She followed her award-winning her performance of her in the hunger of the 2008 film with high-profile films, like the war horse and the clash of the Titans, and won a Bafta in 2011 for his Her Heist Black Film Caset. Like SandoÁ ç ä,~ Á "HoundÁ ç ä,~ clegane, Scottish Actor Rory McCann is one of the Thrones' boys" The most cynical characters "and convincing Á ç ä,~". After surviving a horrible accident of Climbing in the 1980s, McCann became famous in Scotland playing a leading role in an advertising campaign for breakfast. Now it appeared in almost all the seasons of Game of Thrones and is reported to worth about \$ 6 million. McCann , which initially studied to be a painter, trained in a desert boot field for Oliver Stone Epic Alexander and showed her comic side in satire Buddy-Cop Satire Hot fuzz and the Bafta Bafta Sitcom ( Which partly inspired inspiration from his well-advertised accident). Since he joined the show HBO he also appeared in the slow west drama and in the third film in the Xander Cage series. Perhaps you knew him as the cynical bit-player in the indie cult of 1995 struck by living in the OBL Me, or his role of breakout as the fin of the railway obsessed in the station agent. But the character that defines Pietro Dinklage now is the emmy-winning performance of him like Tyrion Lannister, who helped improve the value of him estimated up to \$ 15 million. Dinklage had never read the books from which the show is based, but he jumped to the opportunity to play Tyrion, whose dry spirit and the intelligence of schemes faced. In fact, he was the first actor to sign the show, and for the last two seasons he pulled into \$ 500,000 an episode. When it is not elegant with a cup of wine in hand, the Dinklage can be seen in blocking large large blocks such as X-Men: days of the future past and avengers: infinite war. Caric Van Houten starred with the most successful Dutch film ever, the Black Drama Drama Drama Book of Paul Verhoeven, but she wanted to look at the game of thrones to make it a family name. The role of her melisandure, an enigmatic priestess that serves the mysterious Lord of Light, helped make the award-winning Dutch actress deserves a \$ 5 million. Van Houten, who joined the show in 2012 and has remained a member of the main cast until they leave the show in his last season, he could also be familiar to the American public from his role as Tom Cruise in Valkyrie . But while Van Houten was a candidate for his desire to work in Europe, he was starred in the US and embodied US productions, as well as working for VoiceOver's work for Simpsons.Á ç Isaac Hempstead-Wright he was only 11 years old and He had only acted in a single commercial when he was launched on Game of Thrones as Bran Stark, whose wound by Jaime Lannister has repercussions that widen through the years. He is one of the few members of the main cast to still be on the show, and is estimated that Wright is worth about \$ 4 million. An integral part of the first four seasons of the show, Wright has returned to the season 6 and is an important player in the shortened season shortened, where according to what reported he makes \$ 175,000 per episode. On his time of entertainment inactivity, he appeared in several films and lent his voice to an episode of the animated family series. 40 years after the splendor of her in the British Spy Series The Avengers and the classic 1969 bond movie on her maesty secret service, Actress Diana Rigg has acquired a new generation of With his role as the impiece and the Wily Lady heists Tyrell. It was a third assembly act for the critical acclaimed actress, whose value is estimated at \$ 10 million. RIGG received four Emmy nominations for its role as Olenna, whose acute spirit and Brontacarono Bon Mots is the nickname Á ç ä,~ Á Ä "The queen of thorns" and made it a highlight of Kings Kings Landing Lines. After leaving the show in season 7, he starred in the 2018 Revival Broadway of my mine Lady like Mrs. Higgins, who collected his nominations of both Tony and Drama Desk Awards. Landing Tony Tony Winner Jonathan Pryce As the high sparrow was an important shot of launching for the game of the thrones, and his portrait of the smart religious priest in the seasons 5 and 6 showed the versatile talents of the veteran actor. Furthermore, she has not injured that she helped to defeat the net of the British actor worth up to around \$ 6 million. Photo of courtesy: @ Gameofthrone / Twitter Pryce Pryce's career extends over four decades through films, TV and theater. He landed his role as Breakout in 1985 as Paranoid Bureaukrat Sam Lowry in Terry Gilliam Paranoid Classic Brazil, and worked with other high-profile directors such as Terrence Malick (the new world) and Martin Scorsese (the morning of innocence). His television works appointed by Emmy include barbarians Á ç ä,~ ~ 80s-set at the gate and the historic epic wolf room. Leaving a successful TV show can sometimes be Bitterwet, but Richard Madden, who retrieved Robb Stark in the first three seasons of Game of Thrones, doesn't have too much to complain. In 2019 he won a Golden Globe for his role as a war veteran in the BBC Crime Thriller Bodguard Bodguard and is now worth \$ 6 million. For Madden, Robb Stark's role was the highest profile of his career until today. Until he landed small roles in the British TV series and in the strange or two film. Since he went in 2013 he appeared in different West End productions and starred next to Dustin Hoffman in the historical medical series: Masters of Florence. Most actors would have been crushed at the thought of leaving a show like a throne game in the way through his extremely successful, but for the Dutch actor Michiel Huisman, his shift of three seasons on the series like the faithful commander of Daenerys, Daari Naharis was just another role in an impressive career worth about \$ 3 million. Huisman obtained his start to recite in the 1990s on a long-term work of Dutch soap and made the transition to TV and the film in American language with roles on shows such as trembles and Orphan Black and The Films World War Z and the age of adaline. In 2018 he acted as a writer Steven Prain in the Hit Netflix The Haunting of Hill House series, based on Shirley Jackson's 1959 novel. Like the Tywin Lannister Tyrannico, Charles Dance hit the fear in the hearts of his sons of him Jaime, Cersel and Tiron, as well as the public around the world. It is a mounting role for the British veteran actor who made his television debut in 1974 and is now worth \$ 5 million. Dance, those who were named official of the Order of the British Empire in 2006, combined with Game of Thrones in 2011 and remained a key figure in different textures through the season 5. Since then it appeared in the restart of high profile ghostbusters 2016 in the 2018 TV adaptation of John Le CarrÁ ç ä ç ä,~ Á "ç s Spy Novel The Little Drummer Girl. Lass.
