Author: Sapto harmoko Yogyakarta, library.poltekkesjogja.ac.id Ã Â ¢ ¬ "A lot of academic integrity violations that we have heard in recent times, the problem is a lot of ignorance. It's Open Access ¨ convenience of all the knowledge access so you add that knowledge of quality. the presence of open access is often abused by Peduplikan to copy paste the scientific work of others, causing the phenomenon of Ã ¢ ¬ Â copy pasteÃ ¢ â ¬. According to Dr. Sunu Wasono said that the phenomenon of Ã ¢ ¬ Â copy-pasteÃ ¢ â ¬ shows mentality instant, not creative, does not appreciate the work of others, and dishonest (Dewi, 2019). Let us know the 6 variety of scientific deviations submitted by Anjani Ristekdikti Socialization team: 1. Realization manufacturing is a valid act of engineering or manipulate data on research and / or scholarly work in information. " make it to deceive "Fals ification Falsification of Article 9, paragraph (1) letter B Number 2 is an act of falsification of data and / or research information in the scientific workforce. Ã ¢ â,¬Â Currence tricks "plagiarism is an act: referral and / or quote sentences and / or phrases that are not common without mentioning their sources of work or other persons in the budget record and / or without declaring the source according to the love story and / or listing on scientific writing; use the source of ideas, views, opinions, data and / or theories without declaring their sources of work or other in line with the walk and / or preventive in scientific procedures; Formulate with the judgment of the source of worth, data, or theory without declaring their source of work or other in accordance with science and / or scientific sautors process Translate writing as a source of your work or other people as a whole or some of which are recognized as their scientific work, and / or to recognize a work produced elsewhere as his scientific work. "Using the reference source without acknowledging" the authorityInvalid valid of authority referred to in Article 9, paragraph (1) letter B and the number 4 is an act: 1. Combine voluntarily or by coercion as a shared copyright without reponstrea In published scientific work; 2. Delete the name of a person who contributes to published scientific works; and / or 3. told other people to do scientific work as their scientific work without any input; 4. The contributions referred to in paragraph (1) in the form of ideas, opinions, or active participation in related scientific fields and can not be proven. Ã ¢ â,¬Â Comes unethical or reduces the author's name Ã ¢ ¬ 5. Conflict of interest in the interest of interest referred to in Article 9, paragraph (1) letter B and the number is 5 an act to produce scientific work following the wishes of the party who gives or benefits without carrying out research accordingly with the rules and scientific ethics. Ã ¢ â,¬Â Comromy or deviations from neutralityÃ ¢ â ¬ 6. Family plural presentation presentation referred to in Article 9, paragraph (1) letter b number 6 is a deposit act the same script and published scientific article in more than a newspaper and / or publisher. "The publication several times during the same articleÃ ¢ â ¬ Ã ¢ â,¬Â Momanipulation so that the number of articles is very" Source: Socialization Team Anjani Ristekdikti. Anjani 2019. (Indonesian Academic Integrity Platform) National collaboration Increase Academic Integrity. . Dewi, Retia Kartika. 2019. Ã ¢ â,¬Â Fenomena alleged plagiarism of graduate candidates, "copy-paste" and the instant culture " - -Plagiat-bachelor-copy -paste-and-culture-instant? page = all. Initially, this book was a small document presented by the author in several opportunities to basic with regard to scientific scientific writing techniques Researchers in mid-year 1990. At that time there was not much literature has discussed this issue, the situation still survived until today. While several irregularities in scientific writing techniques in Indonesia continue to occur there. In fact, the practice of plagiarism are always revealed, especially among academics. E ', which is the main interest in the release of this' pocket' for the fourth time. As a 'pocket book', its nature and emphasize more practical interests functions. But in it is described, even for a short time, the development of the basic values of science function (related to morality). He also described how the scientific writing preparation stages, also accompanied by technical guidelines and examples -. Scientific writing the book Ethics is a very important book that should be read not only by students but also by all Indonesian academics, including University lecturers. © This is because the attitude and behavior that is far from ethics has become a worrying symptom in the academic world, which can not be separated from ethics in other fields in the life of the Indonesian nation Book ISBN 978-602- 433-777-3 Dimensions 12.5 x 19 cm type Cover soft cover paper Bookpaper type Weight 300 grams page XXVIII + 116 This year published in 2020 Publishing torch Indonesia loading Previewsorry Library Foundation, Preview is currently available.
