SCR Screen Recorder uses hardware accelerated video encoding to achieve best quality screen recording on any device. It's the only video recorder on the market supporting Tegra device including Nexus 7. This is an early BETA preview version so it may not work on all devices and ROMs. Before you buy consider testing SCR Free to ensure that your device is already supported. If you encounter any issues please report it at scr.screen.recorder@gmail.com to help me get your device supported. SCR Screen Recorder collects anonymous usage statistics to help track bugs and analyze how users use the app. This software uses unmodified code of FFmpeg 1.2 licensed under the LGPL. Marshmallow support added I just released a small update adding Android 6.0 support. Sorry for the delay, I have very little time to work on this project lately. As I smashed my Nexus 6 I couldn't test it on any official Marshmallow ROM. I tested it on Nexus 4 Frank ROM and everything worked OK including internal audio.
