Simple sentence structure worksheets

Prev < 1 2 3 ... 4 > Next If you're confused about what makes a sentence simple, these 37 simple sentence examples will help clear things up. This type of sentence can have only one independent clause. It can be long or short, but the basic structure is always the same. There are several types of simple sentences. Read over each type below and use the worksheet to help you practice writing your own simple sentences. 37 Simple Sentence Examples and Worksheet Simple sentences have one subject and one verb or predicate. Some of these have a direct object or a modifier, but they still only have one subject and one verb. If you need to brush up on these parts of speech, read up on Understanding Subjects, Predicates, and Objects. The following examples show how this works:The cat stretched.Jacob stood on his tiptoes.The car turned the corner.Kelly wriled in circles.She opened the door.Aaron made a picture.I'm sorry.I danced.View & Download PDF Some simple sentences have a single subject and verb, but the subject isn't stated in the sentence. Instead, the reader knows who the subject is from context. You'll notice that many of these short examples are imperative sentences with an implied subject of "you":Run!Open the jar carefully.Read the directions.Don't cry.Use common sense.Make the best of things.Catch up!These sentences have just one independent clause. Refresh your memory about the difference between independent and dependent clauses if you need clarification. You'll also see simple sentences with a compound subject and one verb. In this case, the subjects are joined by a conjunction like "and" and are all performing the action described in the verb. There may be modifiers and direct objects here as well, as you'll see in some of these examples:Sarah and Ira drove to the store.Jenny and I opened all the gifts.The cat and dog ate my parents and I went to a movie.Mrs. Juarez and Mr. Smith are dancing gracefully.Samantha, Elizabeth, and Joan are on the committee.The ham, green beans, mashed potatoes, and corn are gluten-free.The paper and pencil sat idle on the desk. You'll also see some simple sentences with more than one verb and a single subject. In this case, they are compound verbs. The subject is doing all the actions, and the actions go together. The easiest way to see this is with some examples:Misha walked and looked around.My mother hemmed and hawed over where to go for dinner.He was eating and talking.I rinsed and dried the dishes.Joe stood up and spoke to the crowd. Although a simple sentence can be a single word, it can also be much longer. Adding modifiers or multiple direct objects can extend the length of the sentence. These examples are all simple sentences, despite their length:The mangy, scrawny stray dog hurriedly gobbled down the grain-free, organic dog food.I quickly put on my red winter jacket, black snow pants, waterproof boots, homemade mittens, and handknit scarf.The incessant ticking and chiming echoed off the weathered walls of the clock repair shop.Nervously, I unfolded the wrinkled and stained letter from my long-dead ancestor.Into the suitcase, I carelessly threw a pair of ripped jeans, my favorite sweater from high school, an old pair of tube socks with stripes, and \$20,000 in cash. Writers have been using simple sentences as long as people have been writing. Consider these examples from literature:"The Spirits of All Three shall strive within me." A Christmas Carol by Charles Dickens"I was the more deceived." Ophelia in Hamlet by William Shakespeare"Neither boy spoke." The Adventures of Tom Sawyer by Mark Twain"Call me Ishmael." Moby Dick by Herman Melville Now that you know about simple sentences and have seen some examples, take a moment to learn about other sentence types like compound sentences and complex sentences. The more you know about how sentences are put together, the better your writing will become. B.A. English Not ready to purchase a subscription? Click to download the free sample version Download sample Sentence structure is the arrangement of words in a sentence. A sentence is composed of words such as nouns, verbs, adjectives and adverbs. Other important words are: Subject – the noun or nouns that perform the action Example: The cat jumped. The subject of this sentence is the noun, cat because it is performing the action of jumping. Example: Mice and cats sleep. The subjects of this sentence are the nouns, mice, and cats. This is called a compound subject because there is more than one subject performing the same action. Object – the noun or nouns that receive the action Example: The child ate chocolate. Are you looking for some fun, engaging sentences structure games and activities for ESL? Yes? Then keep on reading because we're going to give you the rundown on our top 20 sentence games to try out with your students today. Sentence Games and Activities Let's get into the best sentence making games and activities to consider trying out with your students. Keep on reading for the top sentence builders activities! Top 20 Sentence Structure Games and Activities Are you ready for some of the best complete sentences games and activities out there? Then let's get to it! Here are the best 20 picks for sentences ESL games and activities. #1 Sentences Game: Is that Sentence Correct? One of the best activities for working on sentence structure is this one: Is that sentence correct? The way it works is that you have a bunch of sentences on a worksheet or on the whiteboard. Students have to work together in pairs to decide if the sentence is correct, or not. If not, they have to write down the correct form. For example, if you're teaching about regular and irregular verbs in the past, you could focus your errors on those things. Don't forget to include questions and negative forms too. Or, you may want to make sure your students know how to use modal verbs. This makes an excellent grammar review or warmer activity, so try it out with your students today. More details here: Is that Sentence Correct? #2: Flashcard Sentences I seriously think that flashcards are one of the most under-utilized teaching tools out there! They are so versatile and can be used for a ton of activities, but one area they shine at is helping students with sentence structure. You can easily make this into a game, but the gist of it is that you show students a card and they have make a simple sentence with it. Or, you can show two cards and students have to use a conjunction. Another application is to show a single item, or a group of items and have students use a quantifier (some/any/much, many, etc.) Find out more here: Using Flashcards in the Classroom. #3 Sentence Structure Game: Dictogloss This is a classic ESL activity that gets students making lots of complete sentences. For example, you may want to focus on linking verbs. The way it works is that you read out a dialogue and students have to do their best to recreate what they heard. You can put them in groups of 2-3 and they can work together on it. The number of times and the speed at which you read the dialogue depends on the level of the students. If you want to try it out, you can learn more here: Dictogloss ESL Writing Activity. #4: ESL Surveys I LOVE to use surveys in my classes. Just ask my students and they'll probably tell you all about it! They cover a range of skills and are adaptable to just about any topic, grammatical point or vocabulary. If your ESL students need help with writing a sentence, this is one way to get them to do it. Instead of giving them complete sentences for the questions, leave a number of blanks and they can make their own survey. It's a fun way for them to personalize the language and talk to their classmates about what's most interesting to them. Do you want to know more about one of the best sentence builders activities? Check it out here: ESL Surveys. #5 Simple Sentence Game: Mixed up Sentences This is a quick, easy review game or warm-up that helps students make simple sentences for themselves. The way it works is that you have a number of mixed up sentences in terms of word order. Then, students have to write out the correct sentence structure and order. It's ideal for working on a number of grammar point, but one in particular is subject verb agreement, particularly if your students are from a place like Korea where the verbs go at the end of a sentence instead of the beginning. Or, you could highlight something like compound nouns. You can do this as an activity, or bring a little bit of competition to it and make it into a race. Learn more about it here: Mixed up Sentences. Sentence making games and activities #6 ESL Sentence Game: A to Z If you want to have some fun with your students and get them to make a bunch of sentences, then you'll want to try out this A-Z Alphabet game. It's a simple sentence game that requires almost nothing in the way of materials and basically no preparation. The way it works is that you put students into pairs and they have to write the alphabet on a piece of paper. Then, in the allotted time, they try to make a sentence starting with each letter. I usually make a rule that proper names are not allowed for the first letter. For example: A= All the kids went to school. B= Both my mom and dad love pizza. C= Cats don't like water. Add up the number of correct sentences at the end of the activity and the team with the most is the winner. More information here: A-Z Alphabet Game. #7: Hot Potato Game If you want to create some fun and excitement in your classes, then you're going to need to try out Hot Potato. The students have to pass around a "potato" and when the timer goes off, you can show a flashcard to the student who is holding it. They have to make a sentence, and if correct, get to continue playing the game. You can find out more about using Hot Potato in your ESL classes here: Hot Potato Game. #8: Making a Sentence Whiteboard Games and Activities I don't know what it is, but students love to write on the whiteboard, kids, teens and adults. Maybe it's the novelty factor of it? Whatever the case, it's fun to mix things up in the classroom a little bit and have the students write on the board. In this case, you'll want to use something like a sentence correction game or relay race of some sort. If you want to see some ideas for how to make this happen, you'll want to check out the following: ESL Whiteboard Games. Sentence building games and activities #9 Sentence Writing Games: Error Correction Relay Race This game turns the old (error correction at the sentence level) into something new (a relay race) and fun. The way it works is that you have a few sentences with errors, for example with the passive voice. The students have to work together in teams to correct things like sentence structure, spelling and punctuation to make the correct sentences. Do you want to try it out with your students? You can learn more here: Error Correction Relay. #10 ESL Sentence Structure Activity: Conjunctions and Transitions When your students are practicing making complex and compound sentences, a lesson on conjunctions and transitions can be extremely useful. They're kind of like the building blocks of these more complicated sentence, except that students often forget to use them. Here are some more details about how your students can use these connectors in their English writing: How to Use Conjunctions and Transitions in English. #11: Sentence Structure Song and Chants The good news for English teachers is that there are a ton of songs and chants on YouTube to help our students out with English sentence structure, including how to use phrasal verbs in them. Here's just one quick example of what we're talking about: #12: Future Forms in English With regards to sentence structure, some of the future forms in English can be a little bit tricky. Then, add into the mix when and how to use them in each specific situation and it's clear that our students need a lot of practice with them! Help your students out with some of these top ideas: Future Forms ESL Activities. #13: Subject/Verb Agreement ESL Activities Subject verb agreement is one of the key concepts for our students to learn about in English and making correct sentences! Even more advanced students make mistakes with this, but it's extremely important! That's why it's ideal if we can give our students a ton of practice with subject and verb agreement in our classes. Here are some of the best ideas for how to do this: Subject/Verb Agreement ESL Activities. #14: Include Some Writing in your Classes Sometimes I think that students never really lock down correct sentence structure because we're so focused on speaking and communicative activities. However, it's hard to correct errors if you have more than 3-4 students. That's where some writing practice can come in. Students can take what they've learned in your classes and actually write it down on a piece of paper! This allows the teacher to see exactly where students are making mistakes with regards to sentence structure and offer some corrections. Do you want to include some more writing into your classes but aren't sure how? You'll want to check this out: English Writing Tips. #15: English Sentences Structure Games You'll certainly want to check out this video for more ideas for helping your ESL/EFL students with sentence building: #16: Dictation Writing Practice to Work on Sentences Structure Another way that you can review sentence structure with your English learners is to try out this dictation activity. The way it works is that you read sentences or an entire passage to your students and they have to write down what they hear. In this case, you'd want to target the sentence structures you were teaching your students. Want to know more about this activity that's ideal for writing, listening, spelling, punctuation, grammar, sentence structure, vocabulary and more? You can find out the details here: Dictation ESL Writing and Listening Practice. #17: Chain Spelling Activity If you're teaching your students how to read then you may want to consider playing this spelling game. The way it works is that all the students stand up. Then, you say a word and students take turns spelling it out letter by letter. If someone doesn't get the correct letter, they are "out." #18: Proof-Reading and Editing Proof-reading and editing is an extremely important writing skill for our students to master but they often don't practice it enough in order to become proficient at it. In this case, you'll want to make a paragraph or two (upper level students) or just a few sentences (lower level students) that have some sentences structure errors in them. Perhaps the word order is wrong. Or, the subject and verb don't agree. This will heavily depend on the level of your students and what you've been focusing on in class. If you want to learn more about how to do this activity with your students, check this out: ESL Proof-Reading and Editing Activity. #19: ESL Grammar Activities and Games to Focus on Sentences Structure Good English grammar always involves good sentence structure! They go hand in hand and that's why I generally always require that my students make full sentences for almost every single thing that they say or write. The good news is that teaching grammar doesn't have to be boring. There are a number of options to consider here: ESL Grammar Activities. #20: ESL Sentence Matching Game Sentence Structure FAQs There are a number of important questions that people have about teaching students to make complete sentences. Here are the answers to some of the most common ones. How Can Students Improve their Sentence Structure? There are a number of ways that students can improve their sentence structure. Practice makes perfect Looking at sample sentences Feedback from a teacher Extensive reading Taking a writing course How do you Teach Sentence Structure in English? If you want some help with teaching students how to build complete sentences, then you'll want to check out this short video below: ESL Sentence Structure: How do you Correct Sentence Structure? If you want to correct sentence structure for your students, here are some of the key things to take a look at: Make sure information within the sentence is clear and you can understand the key point See if there are transitional words Pay close attention to subordinate clauses Use the active voice as well as active verbs Follow correct grammar rules and conventions How do you know if it's a Complete Sentence? You can know if it's a complete sentence if: It begins with a capital letter It ends with some punctuation of some kind (period, question mark, exclamation mark) The sentence contains at least one main clause with a subject and verb, at minimum. What is a complete sentence? How do you Write a Powerful Sentence? Less is more so trim the unnecessary parts of your sentence if there are not getting the points across Stronger words belong at the beginning or end, not in the middle Get to the point quickly Avoid fluff and fillers Don't use the passive voice Choose more powerful and active verbs Use words to create an image Create suspense when appropriate ESL Sentence Structure: Should my Students Write Complete Sentences Only? A common question that teachers have when they see a list of these complete sentences games is whether or not this is necessary. After all, when we talk, we rarely speak in full sentences to each other, but instead use fragments. To each their own, but my view is that it's vital that we teach our students, especially beginners to speak and write in complete sentences. If you don't, it's likely that students will never actually learn the correct grammar for most sentences because repetition is the key to language learning. ESL sentence structure can be a little bit tricky, especially for students from certain countries, so give them as much practice as possible! At the more advanced level, I'll often let it slide for simple things and casual conversation, but for more complex sentences that we're focusing on in class? Definitely not and I'll still require my students to make full sentences. That's where these complete sentence games can come in so handy! What is ESL. Basic Sentence Structure? Do you or your students need a little primer on basic sentence structure? Here are some simple sentences to take a look at: Subject-Verb Jack eats. The girl plays. Subject-Verb-Object Jack eats pizza The girl plays soccer. Subject-Verb-Adjective The girl is tall. I am happy. Subject-Verb-Noun I am a musician Jack is a student. Did you like these Sentences Structure Games? Yes? You liked these sentence building games? Thought so! If you loved these sentences games, then you're going to love this book over on Amazon: 101 ESL Activities. The key to better English classes is a wide variety of interesting, engaging activities and this book will help you get there. There's enough material to make it through an entire semester in style! The best part is that the book is well-organized into various sections so you should have no problem finding what you're looking for in just a minute or two. If that's not some ESL teaching awesome, then I'm not sure what is. You can get the book in a couple different formats. Take the e-version with you to your favourite coffee shop for lesson planning on the go. Or, keep a copy on the bookshelf in your office to use as a handy reference guide. Does it sound like what you need to take your lesson planning to the next level? It most certainly is, so check out the book for yourself on Amazon. There are a ton of activities you can use to work on sentences structure: Sentences Structure Worksheets Are you looking for some sentence building worksheets to help your students out with this important writing and speaking skill? Here are some of our go-to resources for this: ISL Collective Thought Co Time 4 Writing Sentences Structure Lesson Plans Do you want to know more about teaching sentence structure ESL? These games, activities and worksheets are a great place to start. But, you may also want to consider trying out some of these sentence building lesson plans.
