So much fun to play. You get coins and gems daily for logging in and also get cash from each restaurant on a daily basis. The restaurants all have their own vibe and menu. Constant upgrades and new restaurants to buy. Would highly recommend this game to anyone!!! I look forward to seeing what new things they will add!!! @Yoshi Kowasaki: Best game ever.....always something to do, so realistic! Don't REALLY have to spend your own money and now have free options to earn and cheaper options to buy. I've actually made game inspired meals!!!! I rated the controls down a star only because sometimes it seems like the game needs to be calibrated for touch to be more responsive (lag) or precise (wrong item gets moved)....but that just might be me, my fat fingers, or my tablet.Nikki Mcdade: It's a fun game some levels I like so I repeat them. And for the people who complaining about the gems smh ain't no reason to complain because you can win gems besides buying them. Because I have 7 store and I have upgrades mostly my food and drinks and got stores and I didnt have to paid for nothing. But overall I love this game I play it every day. Don't worry, that doesn't mean you shouldn't try. That's why we've gathered these helpful tips for aspiring cooks:Collect gems – Gems are the ultimate currency in this game. You can use them to buy sorts of things but they are rare to come. In order to get more, log-in to the game daily to receive rewards. Better yet, log-in consecutively as in the 7th day, you can receive 2 gems daily. You can also bet in the casino once you reach Level 7 XP. When your bet wins, you can win gems!Customers are always right – In this industry, the customers are king. They become impatient when their order takes too long even if they know that the line is long. What you can do to prevent them from storming off is to put the previous customer's money on the counter until food is ready. In other words, serve 1 customer at a time to avoid over-commitment.Upgrades – Item and restaurant upgrades are important to make your process faster and more efficient. The more customers you can serve in a short amount of time, the more money you earn and consecutively – XP.Earn extra coins – Coins are more common than gems in this game. But if you need more, you can always replay your previously completed levels. Keep in mind that the higher the level in the restaurant, the greater number of coins you'll be able to collect once you pass that level.Cooking Fever Mod APK – Unlimited Gems + Coins, No adsIf you don't want to work your way to the top with hard work, try downloading the unlimited Gems + Coins mod and become the best chef instantly! cooking fever mod apk hack unlimited money and gems. cooking fever mod apk hack unlimited money and gems download. cooking express food fever mod apk unlimited money. www.cooking fever unlimited money version 2.2.1 game apk happymod.com
