Exponential function worksheet pdf

For concerns or inquiries about District policies and procedures related to employee-to-employee, student-to-employee, employee-to-student, or work/employment related discrimination, including how to file a complaint, contact your school administrator or : Richard Rideout Assistant Superintendent, Human Resources Chino Valley USD 5130 Riverside Drive, Chino, CA 91710 (909) 628-1202, Ext. 1111 richard Rideout@chino.k12.ca.us Hannah started her clothing line with 55 stores in the year 2012 with an annual growth rate of 2.5%. The growth rate function can be represented as $f(x) = 55(1.025)^x$, where x is the number of years. To estimate the number of stores in the year 2025, i.e, for a period of 13 years, we have to plug in the number of years in x and evaluate. This, however, is one of the many instances where we use exponential functions. Equip high school students with this bundle of worksheets on evaluating exponential functions and bridge the gap between learning and practicing with ease. Grab our free worksheet and begin your practice.
